RE: 2003 First Quarter Water Monitoring, Savage Industries, Inc., Savage Coal Terminal, C/007/0022-WQ03-1, Task ID #97

- 1. Was data submitted for all of the MRP required sites?** YES [] NO [x]
Identify sites not monitored and reason why, if known:

With the exception of the UPDES site that is monitored monthly, the other water monitoring sites are monitored on a semi-annual basis. Sampling that has traditionally been conducted during the 2nd quarter was not conducted. To avoid a hinderance violation, the Permittee submitted an amendment their MRP to better define 'semi-annual' sampling. The MRP was modified to indicate water monitoring will be conducted in the 2nd and 4th quarters to avoid any clarity issues. No other water monitoring was conducted.

- 2. On what date does the MRP require a five-year re-sampling of baseline water data.**
See Technical Directive 004 for baseline resampling requirements. Consider the five-year baseline resubmittal when responding to question one above. Indicate if the MRP dose not have such a requirement.
